The background features a dark blue gradient with a subtle starry pattern. Overlaid on this are several technical diagrams in a lighter blue color. These include circular gauges with numerical scales (e.g., 140, 150, 160, 170, 180, 190, 200, 210, 220, 230, 240, 250, 260), dashed lines, and various circular and semi-circular shapes, some with arrows indicating direction. The overall aesthetic is futuristic and technical.

Service Project

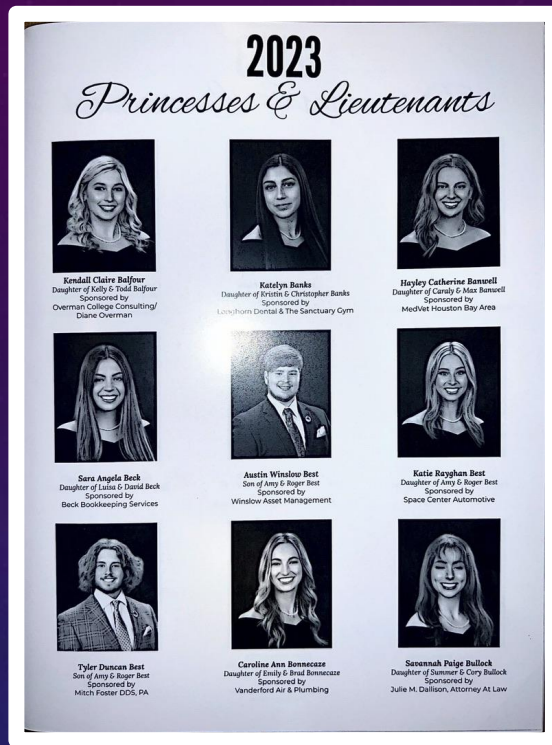

The Lunar Rendezvous Festival prides itself as a service-oriented organization, with a focus on teaching tomorrow's leaders the value of volunteerism. Big Court members are assigned to a team and will plan their own unique community service project to benefit a charity of their choice. Our goal is the court members to experience the personal rewards of "giving back" while allowing the festival to serve our community.

You have been assigned a team. Check your folder for your team assignment.

Immediately following this meeting, please find your team, exchange numbers, appoint a leader and co-leader.
